Microstructural characterization of a new Zn-based creep-resistant alloy . . . . .	1
G. L'Espérance, B. D. Hong (Montreal, Que., Canada), M. Gagné (Pointe-Claire, Que., Canada) and R. J. Barnhurst (Pointe-Claire, Que., Canada)	
Creep investigation of commercial and improved nickel-based wrought superalloys . . . . .	15
G. L. Rosen (Roskilde, Denmark), S. F. Dirnfeld, M. Bamberger, A. Rosen (Haifa, Israel) and B. Prinz (Frankfurt, Germany)	
Model for the prediction of the mechanical behaviour of nanocrystalline materials . . . . .	23
J. Lian, B. Baudelet and A. A. Nazarov (Saint Martin d'Hères, France)	
Low cycle fatigue behavior of an $\alpha + \beta$ titanium alloy: Ti6246 . . . . .	31
A. S. Beranger, X. Feaugas and M. Clavel (Compiègne, France)	
A unified determination of creep and strain rate sensitivity of polycrystals from the properties of constituent grains . . . . .	43
K. M. Murali and G. Z. Weng (New Brunswick, NJ, USA)	
The creep fracture of a single-crystal superalloy . . . . .	51
A. H. Sherry and R. Pilkington (Manchester, UK)	
Fracture characteristics of an Al-Si-Mg model composite system . . . . .	63
M. Manoharan, J. J. Lewandowski (Cleveland, OH, USA) and W. H. Hunt, Jr. (Alcoa Center, PA, USA)	
Effects of strain rate on the deformation and failure behavior of 93wt.%W-5wt.%Ni-2wt.%Fe under shear loading . . . . .	71
T. Weerasooriya and P. A. Beaulieu (Watertown, MA, USA)	
Effects of ageing treatments on resistance to intergranular fracture of 8090 Al-Li alloy plate . . . . .	79
S. P. Lynch, A. R. Wilson and R. T. Byrnes (Fishermens Bend, Vic., Australia)	
Substitution behavior of Mn, Cr, and Zr in ternary and quaternary alloys of TiAl . . . . .	95
R. D. Reviere, X. F. Chen, B. F. Oliver, C. R. Brooks and J. R. Dunlap (Knoxville, TN, USA)	
An electronic approach to alloy design and its application to Ni-based single-crystal superalloys . . . . .	101
K. Matsugi, Y. Murata, M. Morinaga and N. Yukawa (Toyohashi, Japan)	
Characterization and oxidation resistance of hot-pressed chromium diboride . . . . .	111
M. L. Emiliani (West Palm Beach, FL, USA)	
The nature of dislocations and effect of order in rapidly solidified Fe-(5.5-7.5)wt.%Si alloys . . . . .	125
K. Raviprasad (Bangalore, India), K. Aoki (Sendai, Japan) and K. Chattopadhyay (Bangalore, India)	
Correlation between diffusivity of grain boundaries and distribution of coincidence site lattice boundaries in polycrystals . . . . .	137
A. Garbacz and J. W. Wyrzykowski (Warsaw, Poland)	
Effect of microstructure on mechanical properties of isothermally bainite-transformed 300M steel . . . . .	145
Y. Tomita and T. Okawa (Osaka, Japan)	
Grain boundary self-diffusion of $^{63}\text{Ni}$ in austenitic Ni-Cr alloys . . . . .	153
J. Čermák and J. Růžičková (Brno, Czech Republic)	
Investigation of stress corrosion susceptibility of duplex( $\alpha + \gamma$ ) stainless steel in a hot chloride solution . . . . .	159
H. S. Kwon (Taejon, South Korea) and H. S. Kim (Cleveland, OH, USA)	
High temperature structural stability of chemically vapor-deposited silicon carbide filaments . . . . .	167
E. Lara-Curzio, S. S. Sternstein (Troy, NY, USA), C. R. Hubbard, B. Cavin and W. Porter (Oak Ridge, TN, USA)	
Creep behavior of fine-grained two-phase $\text{Al}_2\text{O}_3-\text{Y}_3\text{A}_{15}\text{O}_{12}$ materials . . . . .	173
H. Duong and J. Wolfenstine (Irvine, CA, USA)	

**CONTENTS (*continued*)**

Plasma production of silica-modified graphite fibers . . . . .	181
Y. Zhang and C. A. Pickles (Kingston, Ont., Canada)	
Laser melting of plasma-sprayed alumina coatings . . . . .	189
V. López, M. L. Escudero and J. M. Belló (Madrid, Spain)	
<b>CONFERENCE CALENDAR . . . . .</b>	<b>196</b>
<b>AUTHOR INDEX . . . . .</b>	<b>199</b>
<b>SUBJECT INDEX . . . . .</b>	<b>201</b>
